

## **Regarding Transfer Credits from California Preparatory College**

For a period of time, the Department of Physical Therapy accepted transfer credits from California Preparatory College under an agreement between Loma Linda University, Pacific Union College and California Preparatory College. These credits were for courses that Pacific Union College had vetted as equivalent to courses on their campus.

This agreement will come to an end following Spring Semester 2014. Courses taken through Spring Semester 2014 which were on the list of Pacific Union College's approved courses will still be transferable to Loma Linda University as prerequisites for programs in the Department of Physical Therapy. However, they will only be transferable to the programs beginning June 2015 or June 2016.

Courses taken at California Preparatory College after Spring Semester 2014 will not be transferable as prerequisites to programs in the Department of Physical Therapy.

If you have any questions, please contact the Department of Physical Therapy.
