

B.S. in Nuclear Medicine

Have You Considered a Career in Nuclear Medicine?

Nuclear Medicine is the medical specialty that utilizes the nuclear properties of radioactive and stable nuclides to make diagnostic evaluations of the anatomic or physiologic conditions of the body. The skills of the Nuclear Medicine technologist complement those of the Nuclear Medicine physician and of other allied health professionals.

Bachelor of Science (B.S.) in Nuclear Medicine

The student in this program will learn about patient care, radiation physics and safety, preparation and administration of radio-pharmaceuticals, diagnostic imaging procedures, research procedures, and radiation detection equipment, which includes computerized imaging cameras.

Clinical Training

For clinical training, each student is assigned to affiliated medical centers. In addition to Loma Linda University Medical Center, we have clinical affiliates located in Southern and Central California. Each student is responsible for transportation to the clinical assignments.

Professional Registration

Upon completion of the B.S. requirements, the student is eligible to sit for the qualifying examinations in (1) Nuclear Medicine of the American Registry of Radiologic Technologists (ARRT), (2) the Nuclear Medicine Technology Certification Board (NMTCB) for Nuclear Medicine. Once the student has completed the board exams for the ARRT or the NMTCB, they can apply to the State of California, Department of Health Sciences for the California license.

Students will be able to sit for the boards for Positron Emission Technology (PET), and Computed Tomography (CT) exam from the ARRT after additional clinical training has been completed.

Application Window

Applications are accepted twice a year. January 1 to March 15 for non-ARRT applicants, for a summer start. April 1 to June 15 for ARRT applicants, for a fall start.

Loma Linda University: Educating Radiology Professionals

Loma Linda University offers a number of programs in the medical imaging field. Besides Nuclear Medicine, we offer programs in Medical Radiography, Computed Tomography, Magnetic Resonance, Imaging Informatics (online), Sonography, Radiation Therapy, and Dosimetry. We also offer an online Bachelor's and Master's degrees in Radiation Sciences, a Bachelor's degree in Healthcare Administration, and an online Radiologist Assistant Master's degree program.

Accrediting Associations

Loma Linda University is accredited by the Western Association of Schools and Colleges, Accrediting Commission for Senior Colleges and Universities, and the Radiologic Health Branch of the Department of Health Services.

Eligibility for ARRT Certification

Eligibility for the ARRT certification exam may be affected if the applicant has a prior felony or misdemeanor conviction. Prior to applying to this program the applicant should contact the ARRT for Nuclear Medicine to determine if eligibility will be granted.

Application Procedure

The program begins every year in June for non-radiographers and September for licensed radiographers.

1. Please read the application instructions carefully. Be sure that your application is complete, including the handwritten statement of purpose and the application fee.
2. Recommendations are sent electronically to the people you want to recommend you. You will need to include the e-mail addresses of three people in your application.
3. Make arrangements with your high school and each college that you have attended to have your official transcripts sent directly to the following address: Admissions Office, School of Allied Health Professions, Loma Linda University, Loma Linda, CA 92350. Copies of transcripts or hand delivered transcripts are considered "unofficial". To prevent delays in the selection process, please have your "official transcripts" turned in to Admissions as soon as possible.

Acceptance Process

Applicants will be interviewed by the program director, other faculty members, clinical staff and a representative of the School of Allied Health Professions. After completion of the interviews, the selection committee for the program will meet to make the final selections. Confirmation of each decision is mailed to the respective applicant from the Office of Admissions for the School of Allied Health Professions.

Program Requirements

Applicants are required to complete a background check and possess a current Health Care Provider CPR card offered by the American Heart Association upon admission into the program, adhere to the Program's professional code of conduct. Students at some clinical sites may need a drug test.

Admission Requirements

Admission to this program is dependent on the student fulfilling certain educational requirements, completing career observation experience, and submitting transcripts and letters of recommendation.

- Prerequisite courses met
- Transcripts
- Letters of recommendation
- GPA of 3.0 or better
- 24 hours of observation in Nuclear Medicine is required prior to the interview
- Interview

Certifications Required

Applicants must have all of the following certifications completed prior to the beginning of the school year.

- Current CPR card from the American Heart Association (adult and child)
- Venipuncture*
- ECG/EKG 12 lead placement & interpretation*

*these certifications are available at LLU just prior to the start of the program, if you cannot find them elsewhere.

Prerequisite courses: applicants must complete the following subjects at an accredited college or university prior to entering the program.

HUMANITIES (12-16 quarter units)

RELIGION

Religion (a maximum of 8 qtr units may be applied); for students who attended or are enrolled in a Seventh-day Adventist college, 4 qtr units per year are required.)

NATURAL SCIENCES

Chemistry (Intro or General) with lab - one year
Intro or General Physics with lab
Human Anatomy & Physiology with lab (complete sequence)
College Algebra
Medical Terminology

SOCIAL SCIENCES

General Psychology
Intro to Sociology
Lifespan Development

COMMUNICATION

Freshman Composition, complete sequence (required)
Oral Communication

HEALTH AND WELLNESS

Physical Education (2 activities)
Health or Nutrition

ELECTIVES (to meet minimum total of 96 quarter units)

PLEASE NOTE: "C minus" grades are not transferable for credit

updated 08/12/2014

Observation Experience

A minimum of 24 hours of career observation (volunteer/employee) in a Nuclear Medicine Department is required. The observation form is located online (www.llu.edu) under School of Allied Health Professions, under "forms". Print it out and take it with you to the facility you will be observing.

Documentation

Transcripts of college courses, records of training, and evidence of registry or licensing (when applicable), must be made available before the applicant can be accepted.

Curriculum

During the Bachelor of Science program, students take formal coursework and complete clinical hours to make up a 40-hour week. This program is full time for 117 weeks (undergraduate students), or 103 weeks, and the program schedule extends through academic vacation periods.

Financial Information

Tuition and fees are subject to change each year. Students should be prepared to be responsible for all tuition fees, books, living expenses, and transportation.

Apply early for financial assistance - even before receiving your acceptance into the program. You should begin your financial aid process by January 1. The Free Application for Federal Student Aid (FAFSA) can be found online at www.fafsa.ed.gov. It's best to apply before March each year. You will need your previous year's tax information as part of the application.

Applications for Cal Grants (California residents only) must be postmarked no later than March 2.

LLU's Student Financial Aid office will help you obtain the necessary applications and guide you through the process of applying for aid. Contact them at:
