

Loma Linda University
SCHOOL OF ALLIED HEALTH PROFESSIONS
Department of Orthotics Prosthetics
O&P Observation Verification Form

Please fill in the appropriate information and upload into OPCAS.

Prior to the start of the first day of class, you must complete a minimum of 80 hours of clinical observation under the supervision of an ABC or BOC certified clinician at an O&P facility of your choice. Applying to the program prior to completing hours is encouraged. If possible, try to observe in different practices to get a broader feel for the profession. Please refer to the Skills List to guide your time in the clinics.

Please use a separate form for each observation site.
